Turtle Beach PX22 Ear Cushion Replacement

This guide will outline how to replace a damaged ear cushion on the PX22 headset.

Written By: James de Iturrondo

INTRODUCTION

This is a very simple replacement guide for a damaged ear cushion. The ear cushion can be found here.

TOOLS:

- iFixit Opening Tools (1)

PARTS:

- Turtle Beach ear cushion (1)

Step 1 — Ear Cushion

- Use your fingers to peel off the ear cushion by pinching and pulling off the leather.

Step 2

- Place the new cushion against speaker and wrap the leather around the plastic. Do this by working around the cushion to get all of the leather around the plastic.
- Use the plastic opening tool to tuck excess leather inside the headset.

To reassemble your device, follow these instructions in reverse order.
